

Geoffrey BUELENS

Experience

From december 2017, I am an evaluator in magnetic resonance for the students of the Paul Lambin Institute.

When I worked at Saint Jean Clinic, I was already MRI referent and took part in solving computer problems (low level breakdown, PACS transfers errors, ...)

-From august 2023 (professional) : product specialist radiology at Duomed.

-November 2022 – August 2023 (professionnal) : employee at B-Resonant.

-July 2016 – October 2022 (professionnal) : Medical imaging technologist at Iris South Hospitals – site Etterbeek-Ixelles. **From october 2020**, I obtained the title of IT referent.

-December 2013 – June 2016 (professionnal) : Medical imaging technologist at Iris South Hospitals – site Molière Longchamp in Forest, MRI departement.

-September 2011 - December 2013 (professionnal) : Medical imaging technologist at Saint Jean Clinic in Brussels.

-July 2009 (student) : Medical imaging technologist at Bois de l'Abbaye Hospital located in Seraing.

-July 2008 (student) : worker at Walravens (meat wholesaler) in Jette.

-July 2007 (student) : Handler at Caterpillar located in Grimbergen

-July 2003 and july 2005 (student) : Handler at POK (anonymous society) enterprise in Laeken.

Studies

Paul Lambin Institute, Medical Imaging departement

The formation contains some elements of networking and PACS systems.

Communication

I am interested in new technologies. I build my computer myself and made a small network at home. I find domotic fascinating.
